

1.

as a user

I want to login

so that I can be an active and good student at the university of pittsburgh

given a correct username and password

when I try to login

then I go to the home page

given a correct username and incorrect password

when I try to login

then I should be told that the password was wrong and told to try again

given an incorrect username

when I try to login

then I should be told to try again

given a correct username and a forgotten password

when I want to login

then I should be able to change my password

given no account

when I want an account

then I should see a link to get one

2.

as a user

I want to see different academic tools and information

so that I know what I have available to me as a good student

given a resources page

when I click a link to that page

then I should see links to different resources

given a university email account

when I am on then university website homepage

then I should be able to access my university email account

given university related academic tools

when I am on the homepage

then I should see links to those related tools

given several university events in the near future  
when I look on the homepage  
then I should see descriptions of main events

given a class schedule  
when I am on the homepage  
then I should be able to access my class schedule

3.

as a user

I want to access my email account  
so that I can stay in touch with the world and be a good student

given an email account with the same credentials as this site  
when I redirect to my email account  
then I should already be logged in to my email account

given an email website  
when I am on the mypitt home page  
then I should see a link to my email

given a link to the email  
when I click the link  
then I should be redirected to the email service

given I don't know how to access my email via MyPitt  
when I look for a help resource  
then I find resource links that help me access my email via MyPitt

given that an email window is already open  
when I click the email link  
then I expect to be put in my open email window

4.

as a user

I want a home button  
so that I can easily navigate to home and be a good student

given I am logged in and on the home page  
when I hit the home button  
then I expect to stay on the same page

given I am logged in and not on the home page  
when I hit the home button  
then I expect to go to the home page

given I am not logged in  
when I try to find a home button  
then I should not see one

given that I was logged in but my session timed out  
when I hit the home button  
then I get redirected to the login page

given that I have images disabled for MyPitt  
when I try to click the home button location  
then I am taken back to the home page
